

ZEPELIN POWER SYSTEMS FOR GLOBAL AND REGIONAL DATA CENTER ACCOUNTS

CONTAINERIZED SOLUTIONS CUSTOMIZED TO YOUR NEEDS

Zeppelin Power Systems is your expert partner for reliable power supply for data centers, whether integrated in the facility or containerized solution. Our turnkey solutions provide everything you need: No interruptions or downtime. With us, your facility and data are always reliably protected.

We understand your requirements and specific design needs. Our approach considers an integral scope of supply; from the genset and container to the belly tank, switchgear, fuel filling systems, exhaust aftertreatment (SCR/DPF), UPS and more.

ZEPELIN[®]
Power Systems
